Betreff

Sachstand Beschlussvorlage 00216,2/2021-2026

Inhalt

Sehr geehrter Herr Bürgermeister Simon Hartmann,

in der Ratssitzung am 07. Juli 2022 hat der Rat beschlossen, dass die Stadtverwaltung ein Konzept erarbeitet, wie diese bis 2030 in ihrer täglichen Arbeit treibhausgasneutral werden kann und wie dies die städtischen Liegenschaften bis 2035 werden können.

Unter anderem soll dafür ein Monitoringsystem eingeführt werden.

Für uns stellen sich derzeit folgende Fragen:

1. Wie weit sind Sie mit der Etablierung eines Monitoringsystems?
2. Wer wird das Monitoring dieser Ziele übernehmen, während die Stelle des Klimamanagements möglicherweise unbesetzt ist?
3. In welcher Form liegt bereits das Konzept vor?

Aufgrund der kurzen Zeit die unsere derzeitige Klimaschutzmanagerin noch vor Ort ist, erbitten wir eine möglichst zeitnahe Antwort. Vielen Dank im Voraus!

Mit freundlichen Grüßen

xM. Wilp

Marie Wilp

Fraktionsvorsitzende Grüne Stadtrat Northe...

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.1 million (Office of National Statistics 1999).

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out a vision for the future of older people's health and care. The strategy is based on the principle of 'active ageing', which is the process of optimising the health and well-being of older people. The strategy is based on the following principles: (1) older people should be able to live independently in their own homes; (2) older people should be able to participate in social and community activities; (3) older people should be able to access the services and support they need; and (4) older people should be able to live in a safe and secure environment.
